

# Enrollment— Your first step to getting FutureFIT<sup>®</sup>

Simple strategies to help shape your financial future

# Four no-sweat strategies to help build your future:

1

## Enrollment in your workplace retirement plan

A few online clicks and you're in. Once enrolled, your savings go on auto pilot. That means paying yourself first – and there's no one more important than you. You can enroll online at [corebridgefinancial.com/retire](https://corebridgefinancial.com/retire) or meet with your financial professional.

2

## Annual adjustments

No need to wait for the boss; you can bump up your contributions any time the mood strikes. A small increase can really add up over time. It's as simple as selecting the + key after you sign in to [corebridgefinancial.com/retire](https://corebridgefinancial.com/retire) – or ask your financial professional.

3

## Create a financial action plan

Setting an appointment with your financial professional can help you set your sights on the future you envision with a professional financial plan. There's no additional cost, so why wait?

4

## Focus on the long-term

Remember, you're saving for your future. Sure, life's gonna throw surprises and expenses in your path. That's why you check up on your strategy annually with your financial professional to stay on track. If you prefer to fly solo, [corebridgefinancial.com/retire](https://corebridgefinancial.com/retire) has plenty of online tools to help keep your flight on the right path.

The Education Center features a number of brief articles on current topics that matter to you.

# There's no time like the present to start **building** your future

Here's why enrolling in your workplace retirement plan today is critical to saving for a more secure future.

## Tight budget? No problem

You can enroll in your workplace retirement plan and start contributing any small amount. Just get started.

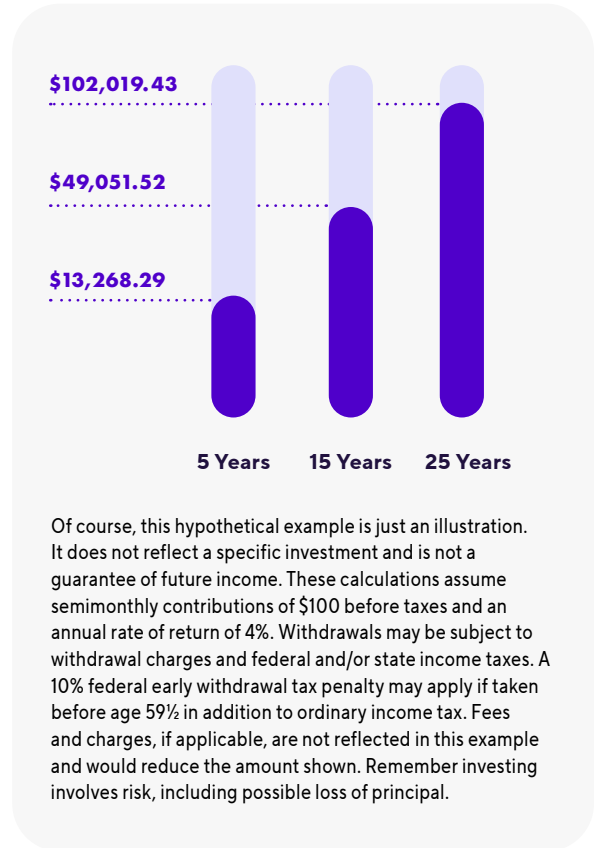

## It adds up

Suppose someone with a \$50,000 gross annual income is socking away just under 5% (that's approximately \$100) semimonthly into a retirement savings plan. That's 24 annual contributions. The chart to the right shows how much they could save over time.

## You're in charge

You can increase or decrease your contribution amount, or stop contributing and restart again, at any time.

The sooner you start, the more time there is to build the financial future you want. So make the decision to start saving. You can tweak it whenever it's convenient. The important thing is to start.

# Choose the way you want to save

## Invest your money your way

You've got choices. Great! But sometimes, having lots of different choices can get confusing. Just don't let those choices overwhelm you into inaction. The FutureFIT calculator can help with your investment strategy also. Of course, you can always get help from your financial professional.

### You don't need to be an expert to save for your future

Large cap? Small cap? International? Stock or bond funds? If investment research isn't your cup of tea, you may want to consider one or more of the following savings options:

#### Lifestyle Fund

Matches your investment mix with your tolerance for risk

#### Target Maturity Fund<sup>1</sup>

Matches your investment mix with your age

#### Fixed Option<sup>2</sup>

A fixed annuity that contractually guarantees a fixed rate of return

All guarantees are backed by the claims-paying ability of The Variable Annuity Life Insurance Company.

### Flexible and easy to control

Once you enroll, you can change your selections whenever it's convenient. The important thing is that you have taken the first step toward a more secure retirement.

Investing involves risk, including the possible loss of principal. Investment values will fluctuate and there is no assurance that the objective of any fund will be achieved. Mutual fund shares are redeemable at the then-current net asset value, which may be more or less than their original cost.

<sup>1</sup> The principal value of an investment in a target date fund is not guaranteed at any time including at or after the target maturity date. The target date is the approximate date when investors plan to start withdrawing their money. The fund will gradually shift its emphasis from more aggressive investments to more conservative ones based on its target date.

<sup>2</sup> Fixed-Interest Option is a group fixed unallocated annuity issued by The Variable Annuity Life Insurance Company, Houston, Texas.

# You've got this

It's easy to talk yourself out of saving – but there are just as many solutions to help you save for retirement.

Obstacles	Solutions
I'm too young to save for retirement ...	I can benefit from the opportunity of compounding growth, even with small amounts.
I can't afford it ...	I can start small and increase it later.
Too many unexpected expenses ...	I can brown bag my lunch sometimes and wait for sales to buy my clothes.
I'm too busy ...	I can set this up today and make saving automatic.
I don't know how much I need to save ...	I can talk with a financial professional or use the FutureFIT calculator.
This stuff makes my head spin ...	I have the tools. My financial professional can help me. I can do this!
