

# RETURN TO SCHOOL SCENARIOS

## FULL IN-PERSON LEARNING

### STUDENTS SAFELY LEARN IN SCHOOL

**IN-PERSON LEARNING:** Students will learn in a traditional, at-school learning experience with additional safety measures implemented based on guidance from health authorities.

*Parents are able to opt-out their students from full in-person learning for a full remote learning experience. PCR-3 families who choose this option will remain in remote learning for the entire semester. **FAMILIES WILL NEED TO OPT-OUT FOR 1ST SEMESTER IN-PERSON LEARNING BY JULY 31, 2020.***

## ALTERNATING SCHEDULE

### STUDENTS SAFELY LEARN IN SCHOOL AND AWAY FROM SCHOOL

**BLENDED LEARNING:** In the event the community spread elevates to a higher level of public health risk or other factors dictate, students will rotate attendance so that approximately half of the student enrollment will learn in-person and half will learn remotely on any given day.

*PCR-3 families are not able to choose this option. This scenario will be initiated based on guidance from local health authorities and considering other factors.*

## FULL REMOTE LEARNING

### STUDENTS SAFELY LEARN AWAY FROM SCHOOL

**REMOTE LEARNING:** Students will engage in classes and conduct learning remotely. Learning will include both direct teacher instruction and independent student work, with a combination of virtual meetings, interactive class sessions, and pre-recorded videos.

*This scenario will be initiated based on guidance from local health authorities. If full-in-person learning is the scenario PCR-3 begins with 1st and 2nd semester, PCR-3 families are able to opt-in to full remote learning for a complete semester.*
